

Barcelona, 18 December, 2006

Im. Sr. Jordi Hereu i Boher  
Mayor of Barcelona

It is a pleasure to inform you that the three Jewish communities rooted in this city agreed on delegating in the architects Dominique Tomasov Blinder and David Stoleru, the task of working with the public administration on tangible as well as intangible issues related with the preservation, diffusion and representation of Jewish heritage in the city.

We are very attentive on insuring that the negotiations about the future of the precinct of the ancient cemetery in the Montjuïc arrive at good purpose and this will help to establishing the most suitable framework for other projects planned for the city, like that of the Call.

We trust that this heritage commission will join in with the efforts in order to guarantee full quality in the interventions and in its contents. In order to start this participation, our representatives will get in touch with the different government offices and remain at your disposal.

We thank your interest and sensitivity in these matters.  
Receive our more cordial greetings,

***Teodoro Burdman, President Comunidad Israelita de Barcelona***
